

- AWS
 - Free \$200 credit up till spent
 - Paid membership gives access to all services
 - Database management using DynamoDB
 - Sagemaker for AI training
 - EC2 for deployment
 - S3 for storage
 - CAN LOOK INTO MORE USES
- GitHub Enterprise:
 - 20 per person on enterprise
 - Would need to use separate platform for everything else
- Azure
 - Also has \$200 credit
 - Very similar benefits to AWS
 - Slightly higher cost
 - Can be useful for integration with UConn Microsoft Platform
 - A little bit more of a learning curve since no one has experience
